Ironical that @DrJillStein is demanding electoral integrity while praising Fidel Castro, the dictator of a one party state for 50 years.

An excerpt from the pseudo "intelligence report" "leaked" to BuzzFeed, who published it, ahead of Trump's press conference on Wednesday.

6. Finally, regarding TRUMP's claimed minimal investment profile in Russia, a separate source with direct knowledge said this had not been for want of trying. TRUMP's previous efforts had included exploring the real estate sector in St Petersburg as well as Moscow but in the end TRUMP had had to settle for the use of extensive sexual services there from local prostitutes rather than business success.

We haven't really talked about Qanon and how utterly stupid the conspiracy theories are behind it. It is an obvious troll to pull in the far right wing conspiracy mob, and it has worked. Qanon is a fabrication, and eventually people are going to get hurt because of it.

Sorry to say but @foxandfriends is by far the best of the morning political shows on television. It rightfully has BY FAR the highest ratings, not even close. Morning Psycho (Joe), who helped get me elected in 2016 by having me on (free) all the time, has nosedived, too Angry...

I wonder if the New York Times will apologize to me a second time, as they did after the 2016 Election. But this one will have to be a far bigger & better apology. On this one they will have to get down on their knees & beg for forgiveness, they are taking the Enemy of the People!

torgiveness-they are truly the Enemy of the People!

Telling people it is OK to be THAT ignorant only enables such behaviour.

Accountability is key.

1. Those who have committed crimes are punished ACCORDING TO THE LAW. If that means death for some, so be it.

2. Those who voted for such bad actors are made aware of their ignorance & educated so that they learn to RESEARCH FOR THEMSELVES.

Only through correction can they grow.

Should we hold the fact they voted for treason against them? Absolutely!

Untrue.

This ongoing plague of popsci mysticism is worse today than it has ever been.

If it were as simple as thinking, then false thoughts would not be false.

Critical thinking is, however, how one realizes this.

Only a parochial mind conceives of this life as mere discursive narrative. Already in the plenum of awareness, each individual reaches into the numinous spring of existence, reflecting the light of their gaze thru the prism of creation. Were this stagnant, nothing could be new.

The root of the problem is that society's been deliberately dumbed down & indoctrinated via the public school system. Our enemy plays the long game. They targeted our children decades ago while we **zz**slept.**zz** & brainwashed them into rejecting Freedom, God & Righteousness.

Take a step back and reread what you are suggesting critically. No school in America prevents any child from pursuing their own intellectual and recreational interests. To say the schools themselves are to blame ironically exposes the deep infantilization of our children.

While one is free to believe whatsoever one pleases, honesty & truthfulness cannot be decided independently of something called reality. I find it curious to see so much effort being spent over decades to concoct false Jesus characters.
Perhaps the #ParableoftheSower explains it.

The most striking example of this appropriation includes accepting "only Jesus" but then throwing out the Old Testament, despite Jesus's explicit remarks about fulfilling it. This #NewAge #Ascension view, among others, follows this form of revisionist cherrypicking. Very telling.

Does that which others profess to believe have a material and causative effect upon one?

Does naive belief transcend reality?

Given that it did, no belief would have any effect at all.

What hope do the profiteers have of surviving when the truth becomes all the more available to the public - when the public profits from the truth instead of illusions - and the truth about the profiteers is made clear as day?

What option do they have but to lie and prostitute?

When the individual doesn't matter, no one does.

Now think about the promise of all socialist modes of organization. All forms of socialism actually serve a crypto-tyranny of unelected persons, who parasitically feed on the feudal-socialist crop.

That's the reality.

Since others have been wondering (my analysis):

"#8Kun" can be read as "hachi-kun" or "yattsu-kun", the meaning intended clearly points to the latter reading, since "yattsu" means "many" as in "infinite"(-chan, the original name) and "eight" of something small, like the site.

Also "hachikun" ("hachi" meaning "eight") can be understood as an abbrev. of the idiom "□□□□" which means "(with) great vigor (from the way splitting bamboo goes all the way down the stick)" or "irresistible force". There may be other readings; these are the most obvious.

As for all anti-religious ideology, it is in fact a form of religion that places mankind at the center of creation as the ruler over all of morality.

In such a dogma, the only logical outcome is anarchy as law.

Consider myself lucky? 🙄

How about this, how about I am able to discern truth from fiction?

How about this has been going on for my entire 50+ years of life and I have managed to sort the shit propaganda spoon fed for decades to the masses on the TV from real life truths?

Sure. You write in glowing tones about the clown even now, going so far as to express appreciation and even gratitude.

Incidentally, I do not subscribe to the philosophy that opposition is valuable in the context of the propagandization of disinformation via limited hangouts.

No adversary (of equal status) exists.

It's ironic to see those promoting the groundless presupposition that this reality is a sham. If it were a sham, there would be nothing here worth fighting for & quite literally any action would have no discernible impact whatsoever. Beliefs & actions have consequences.

Do not confuse @realDonaldTrump's anti-war position with Tulsi Gabbard's US surrender position. She would DESTROY our military through the usual cutbacks and expenditure reductions in the budget. This is wholly in keeping with the CFR and other organizations' agendas.

Don't be fooled. I already knew about the Mauna Kea hand gesture. The limited hangouts and dissimulators are trying to suggest Tulsi is somehow not Illuminati related, but the fact she was in CFR and is an avowed socialist democrat points to that quite readily.

Do not confuse @realDonaldTrump's anti-war position with Tulsi Gabbard's US surrender position. She would DESTROY our military through the usual cutbacks and expenditure reductions in the budget. This is wholly in keeping with the CFR and other organizations' agendas.

Yes, our lives could be upended. Yet it is not the position of our lives, or "society" which should most concern us, it is the soul and spirit which makes it possible. The society of man is already upended, yet we are accustomed to its form, and pay its tribute in fear.

1

obyvatel @Teeka_Masala · 1h

Yet there is only one place for your fear, and it is not in this world.

Perhaps truth is not designed to be entirely compatible with this life, but only beyond it.

Yet if we are to become maximally compatible with the divine, there are parts which must rightly burn.

I hear that Liszt heads the Secret Space Conference which gives him clout in the alternative research community.

If you are making a lokinet service node for testnet, please grab the 'lokinet-router' package from deb.imaginary.stream. You do not want to use the 'loki-service-node-package' because its not ready for production usage yet.

Veteran Mob Prosecutor John Durham was NOT appointed by AGBarr. Durham served as interim U.S. Attorney since Oct 28, 2017, after Sessions appointed him. Coincidentally the same day 'Q' began posting. PresTrump nominated Durham as U.S. Atty on Nov 1, 2017. Fuck me, it's happening.

After two years, we've seen 8ch.net run its course.
There are plenty of venues where the very same anonymous research can be shared & conducted.
The problem is the playing field is uneven, i.e., overrun with COINTELPRO & other ("full disclosure") limited hangouts.

The genius of #QAnon is not so much the information, but rather the exploitation of this uneven field of play. By building a contingent of dedicated faceless agents, the balance of forces can be reversed in a standalone complex, whereby anyone can take on the role of liberator.

This is not a false liberation. With adequate ammunition, the bulwarks of enslavement can be rendered into rubble, and the dungeons exhumed. The mind, once given a spark of freedom, can grow into a conflagration of liberty.

We can take this baton anywhere.

This is only a start.

It's obvious to anyone that the takedown of 8ch.net and continued attacks on 8kun.net are motivated purely by hatred of #QAnon. Every other adduced cause is simply a cover & distraction. They are terrified of Q. They are terrified of us. Pure panic.

To the critical thinkers out there who cannot see #QAnon's posts, that is because the HTML is not getting updated on 8kun.us (8kun.net, etc.).

Why must everything extreme & fantastical purported to be from "inside" sources automatically have our trust?
This is the problem with the "full disclosure" crowd. They cannot see beyond the fog of their own limited awareness that would otherwise elicit the lies before them.

The profound irony of Dems protecting illegals afforded citizen rights due to an unconstitutional presidential action by Hussein should tell everyone everything they need to know about 44 and the Dems and who they really need to have a shred of hope for survival.

Donald J. Trump  @realDonaldTrump

Many of the people in DACA, no longer very young, are far from "angels." Some are very tough, hardened criminals. President Obama said he had no legal right to sign order, but would anyway. If Supreme Court remedies with overturn, a deal will be made with Dems for them to stay!

The Project Looking Glass drop was certain to be capitalized upon by the New Age cultists. I have nothing to say about it because there is no reliable public information about it, so it is useless speculation. Although I'm not surprised given earlier "looking glass" drops by Q.

My understanding was a super computer project. programmed to take in MM of variables and tie it to human reaction, desire and motive to predict outcomes of future events. Your thoughts?

1

**QN™** @qntmpkts[Follow](#)

Replying to @kirka33

That would be the beginning of a description, but would not explain the most likely motivation for such a project, i.e., what its actual and stated goal is. Predictive modelling of human behavior for immediate outcomes has its greatest relevance in game theoretic maneuvers.

Why do people continue to gravitate around a fake whistleblower like Corey Goode who cobbled together yet another Heaven's Gate cult? Naturally, such a question applies to his acolytes and sycophantic supporters and co-frauds.

Why does Q say, "Read the Bible. God wins"?

Does that have something to do with the shills crying, "Q is a fundie cult!!!!"?

Fundamentalism is not necessarily the only exegesis, but the eisegesis of those who haven't bothered to read the Bible is always obvious to those who have.

I am cautious over Congresswoman Ilhan Omar.

Very strange her community is flooded with immigrant Muslims. Record numbers living there.

Why do they want to run for office so badly pushing their faith as an agenda in America.

Makes me think of Rupert sheldrake

New Age cultists clutch onto anything they can use to their ends. The Bible, science, reason, etc. become like clay in their hands, which they never hesitate to reshape into their own image.

As for Sheldrake, he seems too satisfied with words as explanations. Bad science.

Here's a clue, @60Minutes: @YouTube has extraordinarily limited control over its platform, let alone how that content is spread outside of it. Nothing they do will ever achieve insular control over how others gather information. #QAnon & related truth movements cannot be censored.

Solar forcing isn't considered in anthropogenic-driven climate models. As are a whole host of other mechanisms that actually matter.

Climate scientists typically account only for "top-down" forcing (thermal coupling), a mere 0.1% (conservative) of the total forcing in evidence.

A message should not depend on who the messenger is, but again and again, people fall into the trap of glorifying those who they've falsely been led to believe are their saviors. Without independent observers and distributed information, this problem will continue to occur.

No, I quite like this. And it is obviously not "half". Far more than that. I would say at least $\frac{2}{3}$. The more the (liberal, NWO, fake) media pretends we don't exist, the more people we will find joining our cause for true freedom. Even the fake conservatives.

Meghan McCain  @MeghanMcCain

Pretending half the country doesn't exist won't make them disappear. The culture war is real, and Americans who aren't part of the overwhelmingly anti-conservative media deserve to have their views represented.

Must. But will he?

Dan Bongino  @dbongino

Adam Schiff must be impeached. He lied about his contacts with the fake whistleblower and he was caught on tape colluding with Russians trying to obtain kompromat on President Trump. He must be impeached. Frauds like him must go.

I remind my Democrat colleagues as they repeat the phrase "no one is above the law," that the President certainly isn't below the law, either

They have treated @realDonaldTrump as if he is, throughout this entire process

Can you believe there are people who falsely claim the Bible was written by Satanists?

Look no farther than Twitter to find them.

Who are these people?

She's a kaba-murdrum Heaven's Gate cult member, spreading theosophical New Age illuminist-illusionist deceptions from a "channeler" of lies.

It is not surprising to see her rabidly repeating those lies with vindictive vehemence & zero credible data whatsoever. They sabotage truth.

James Comey  @Comey · 28 Dec 2019

I often hear Trump supporters say they don't pay attention to his tweets. But you must. And ask yourselves whether they reflect the values you want in a president and in America. What he tweets matters. Is that who you are? Is that who you want your kids to be? Don't look away.

Neo-Gnostics, which have always been fringe & counterfactual, typically push these ideas:

- 1) The Bible is false
- 2) Yahweh & Satan are coequal and both fundamentally evil
- 3) This world and physicality is a deception
- 4) Their Jesus isn't the Jesus of Christianity

These ideas find extraordinary prominence in the New Age. This is not a coincidence as these are congruent with a continuum of such ideas. All intellectually honest persons recognize these pretentious ideas. Beware not to fall into the trappings of a benighted world.
